

# Kenya: Energy Access Journey

## Recommendations to address and accelerate energy access finance flows

- ### FINANCING RECOMMENDATIONS
- Support project development
  - Reform tariff policies for DRE products
  - Focus on gender mainstreaming and empowerment
  - Reduce taxes and charges for DRE products
  - Facilitate bundling of projects
  - Standardize project requirements
- 
- Encourage more flexible loan requirements for fuel and stove enterprises
  - Expand consumer finance/PAYGO
  - Facilitate carbon credits and alternative financing mechanisms
  - Streamline accreditation for stove and fuel companies

Ensuring women's participation in energy decision-making and the design of financial instruments will accelerate women's empowerment and energy access for all.
